

## EF22TS Rooftop Split Air Conditioner

### Overview

Characterized by complete split design, electrical compressors within closed circuit generated from second-generation inverter technology, automatic cooling power control with minimum consumption, EcoFleet EF22TS Rooftop Split Air Conditioner is your perfect choice for On-Road vehicles include sleeper cabs, off-road vehicles, agricultural vehicles, ATV's, ambulances, firetrucks, TBL vehicles, airport ground service vehicles etc.

Easy and optional means of installation, including being mounted on a shelf, directly on the back wall of the cab, or in a storage compartment, robust and reliable EF22TS will make you enjoy sleep overnight in the truck cabin.

### Features

1. Sense of security. Enclosed and silent working environment without windows open, and auxiliary dehumidification function, leaves no concern for theft or any other disturbances, but only cozy and cool environment. Thereby the deeper sleep you have for the rest, the much focused you are while driving.
2. Sense of trust. Equipped with highly efficient 12v/24v brushless DC compressor and automatic main batter protection, you are totally worry-free to the power of your car whilst enjoy the driving.
3. Sense of Ecology. Zero CO<sub>2</sub> emissions due to engine switched OFF, makes Ecofleet a good ally for the environmental protection.
4. Sense of saving. No maintenance on account of refined Ecofleet technology, less wear and fuel consumption due to being capable of working under engine switched On or Off, less installing time consumption owing to ready-to-fit kits design, you may save your time, energy, and money.

## Specifications

Cooling capacity	2.0--2.2 KW
	6824-7506 BTU/H
	1720-1892 Kcal/h
Refrigerant gas	R134A
Voltage	DC 12V/24V
Compressor	Brushless DC electrical compressor
Condenser air	≥ 1800 m <sup>3</sup> /h
Cooling air	≥ 980 m <sup>3</sup> /h
Fan speed	3 speed
Max. current	12V 62.1A
	24V 42.3A
Working current	12V 55A
	24V 38A
Total Weight	34 kg
Ac size	Con.856*744*220mm
	Evp.300*483*187mm
Package size	Con.900*800*300mm
	Evp.550*400*245mm
Connecting pipes	Rubber hose with crimp connectors And Copper Pipe
Shut-off voltage	21.5V/10.5V
Cabin	4-5 seats cabin
